Calling all Deltanji source control users - a date for your diary!

We'll be hosting our bi-annual virtual User Group Session on Thursday, November 3rd at 3pm (GMT). We will demonstrate the new Production component driver for [Deltanji](#) - that enables highly granular management of Interoperability Productions with tight integration into the management portal.

The session is also an opportunity for us to help to problem-solve any issues you're having, and a chance for you to offer your feedback on our tools.

Those interested in finding out more about Deltanji source control are welcome to join us too.

Sign up for free on Eventbrite >> https://bit.ly/3yBVYVO
