## [Video] Semantic Interoperability at Healthix: Using Managed Terminology within HealthShare

Hey Community,

Enjoy watching the new video on [InterSystems Developers YouTube](#):

[Semantic Interoperability at Healthix: Using Managed Terminology within HealthShare @ Global Summit 2022](#)

Healthix, one of the largest public health information exchanges in the United States, is improving health outcomes by proactively identifying and correcting nonstandardized, incorrect, or local codes sent by its 8,000+ participants. Using J2 Managed Terminology in conjunction with InterSystems HealthShare Unified Care Record, Healthix has seen a dramatic improvement in data quality and data trust since the beginning of the year. Join us to hear about the approach, results, and lessons learned from this ongoing effort. All levels.

Presenters:

[@Nick VanDuyne](#), Senior Vice President/CIO, Healthix  
Steve McGlothlin, Product Manager, J2 Interactive

Enjoy watching and stay tuned!
