InterSystems HealthShare Architect (Remote Opportunity)

VetsEZ is seeking a full-time remote InterSystems HealthShare / IRIS Architect to design and deliver integrated health solutions for our federal healthcare clients with a focus on automation and semantic interoperability. This role focuses on understanding complex technical and business requirements and translating them into highly scalable, robust integration architectures. Act as a technical lead, and mentor team members while maintaining a hands-on role.

The candidate must reside within the continental US.

Responsibilities:

- Architecting and configuring the InterSystems HealthShare / IRIS platform with a focus on Automation and CI/CD
- Utilizing Healthcare Interoperability Standards (HL7v2, FHIR, CCDA, IHE, X12) appropriately in solution designs
- Understanding and translating business and technical requirements, particularly those that are unique to healthcare, into architectures and solution designs
- Lead development teams in building solutions as an architect and automating processes
- Developing and implementing APIs and Web Services (REST, SOAP) and designing API-based solutions
- Utilizing CI/CD technologies and processes including but not limited to Git, Jenkins, Docker
- Using AWS-based cloud architectures, VM and Containers, and deployment strategies to Architect solutions
- Implementing and using authorization frameworks, including OAuth 2.0, OIDC, and SAML 2.0
- Utilizing Enterprise Integration Patterns in solution designs

Requirements:

- Bachelor's degree in Information Technology, Computer Science, or other related fields
- 3+ years of experience in InterSystems ObjectScript, .NET (C#), Java, or other Object-Oriented Programming languages
- Strong interpersonal skills with hands-on Architect leadership experience to guide and mentor a team
- Flexible and able to adapt to frequently changing standards and priorities
- Proven experience developing and implementing highly scalable enterprise-level interoperability solutions
- Passion for deploying scalable, robust solutions with an eye towards futureproofing
- HealthShare Unified Care Record Technical Specialist

Additional Qualifications:

- Must be able to obtain and maintain Public Trust Clearance
- Background in the Department of Veterans Affairs and healthcare preferred
- Certified Maximo Deployment Professional and Certified SAFe Agile Architect

Benefits:

- Medical/Dental/Vision
- 401k with Employer Match
