Building and Managing HL7 Integrations November 28-December 2, 2022 - Registration space available

[Building and Managing HL7 Integrations](#) November 28-December 2, 2022 9:00am-5:00 US-Eastern Time (EST)

- This healthcare-focused five-day course teaches implementation partners, integrators and analysts how to rapidly build HL7 integration solutions.
- Students build a production that processes and routes HL7 messages.
- Students learn how to work with the pre-built HL7 business services, business processes and business operations to receive and send HL7 messages.
- Students also learn how to transform HL7 messages using graphical tools in the Management Portal. This course teaches students how to monitor, manage, and troubleshoot Productions. Students also learn how to use the Management Portal for viewing, searching, and resending messages.
- This course is applicable for users of InterSystems IRIS for Health, Ensemble, and HealthShare.
