InterSystems FHIR Healthtech Incubator Caelestinus Final Demo Day

Hi Community,

The day has arrived — InterSystems FHIR Healthtech Incubator Caelestinus Final Demo Day, November 30, 2022!

We started Caelestinus 8 months ago in March with 22 outstanding teams. Today 15 teams will pitch what they have achieved so far and their message to the market!

I ' m pleased to invite everyone to InterSystems FHIR Health Tech incubator Caelestinus Demo Day, which will happen in a hybrid online/offline mode: you can watch pitches online via www.caelestinus.tech starting at 2 p.m. CET or go in-person in IKEM — Institute for Clinical and Experimental Medicine, the largest Czech medical research and clinical hospital.

Save the date: 30th of November 2022, 2 PM CET.

Will be happy to see you online and in Prague in person.

Good luck to Caelestini startups!
