A issus when using dotnet System.Data.Odbc nuget to connet the iris

Product version

I try the 2021.2 2020.2 , they own have this issus

For this issus i have submit to dotnet , hope they can solve this or find the reson for this and solve this.

platform

ubuntu using unixOdbc dirver

Describe the problem you're observing:

using dotnet nuget System.Data.Odbc to connet the iris for some sql will have bug on linux,but it is ok on windows and that driver is ok for other db type .
I have put a issue on dotnet also ([dotnet/runtime#80015](#))
Is anyone can have a look for that
