## Error while running the SQL Query- Incorrect list format: 0 >= 0SQLSTATE: S1000

Hello Team,

I need a help in the following error I am getting while running the SQL Query. I am running the SQL Query from different table using inner join. I run this everyday for last 90 days but for few days while extracting the data through this query I am getting this error. Please assist.

SQLException was thrown: Incorrect list format: 0 >= 0SQLSTATE: S1000

SQLException was thrown: Incorrect list format: 0 >= 0SQLSTATE: S1000

Error getting attributeColumn: Name

Error getting attributeColumn: Amount

Error getting attributeColumn: RollNumber

Thanks in advance !!
