InterSystems announces availability of InterSystems IRIS, IRIS for Health, & HealthShare Health Connect 2022.1.2

InterSystems is pleased to announce that the extended maintenance releases of InterSystems IRIS, InterSystems IRIS for Health, and HealthShare Health Connect 2022.1.2 are now available. These releases provide a few selected features and bug fixes for the 2022.1.0 and 2022.1.1 releases.

You can find additional information about what has changed on these pages:

- [InterSystems IRIS](#)
- [InterSystems IRIS for Health](#)
- [HealthShare Health Connect](#)

Please share your feedback through the [Developer Community](#) so we can build a better product together.

How to get the software

The software is available as both classic installation packages and container images. For the complete list of available installers and container images, please refer to the [Supported Platforms webpage](#).

Full installation packages for each product are available from the WRC's [Software Distribution page](#).

Installation packages and preview keys are available from the WRC's [preview download site](#) or through the [evaluation services website](#).

Container images for the Enterprise and Community Editions of InterSystems IRIS and IRIS for Health and all corresponding components are available from the [InterSystems Container Registry](#).

The number of all kits & containers in this release is 2022.1.2.574.0.
