Webinar in Spanish: "Validating FHIR profiles with InterSystems IRIS for Health"

Hi Community,

We're pleased to invite you to the upcoming webinar in Spanish called "[Validating FHIR profiles with InterSystems IRIS for Health](#)".

Date & time: February 2, 3:00 PM CET

Speaker: [@Ariel Arias](#), Sales Engineer, InterSystems Chile

The banner features a blue and green geometric background. On the left, the text 'WEBINAR' is in white. The main title 'Validación de Perfiles FHIR con InterSystems IRIS for Health' is in large white font. Below it, the date '2 DE FEBRERO' is followed by three time slots: '15:00 MADRID', '09:00 BOGOTÁ', and '11:00 SANTIAGO'. On the right, the InterSystems Developer Community logo is at the top, and a portrait of Ariel Arias is shown. Below the portrait, his name 'ARIEL ARIAS' and title 'SALES ENGINEER INTERSYSTEMS CHILE' are listed.

The webinar is aimed at developers and entrepreneurs.

During the webinar, we will build a FHIR server and repository. We will also add a local profile with its extensions, to validate resources upon that guide. We will do it by using InterSystems IRIS, the IRIS validator (Java), and SUSHI.

With all of this, we will have all we need to validate profiles before sending them to a central repository and test the FHIR applications by consuming those resources stored on the InterSystems IRIS for Health's FHIR Repository.

[Register today and enjoy! >>](#)
