## Has everyone moved over to InterSystems Reports?

I have a question for people currently in the community who support TrakCare implementations.

Are you all currently working through the migration from Crystal/Zen over to Logi Reports?

What are your plans for the Zen reports you can't migrate off for example the HTML letter template?

I have spoken with a few people regarding this topic but starting to get concerned if there is a call in the near future to decommission ZEN/

[#InterSystems Reports \(Logi\)](#) [#TrakCare](#)

Product version: IRIS 2022.1
