InterSystems announces availability of InterSystems IRIS, IRIS for Health, & HealthShare Health Connect 2021.1.3

InterSystems is pleased to announce that the extended maintenance release of InterSystems IRIS, InterSystems IRIS for Health, and HealthShare Health Connect 2021.1.3 is now available. This release provides a few selected features and bug fixes for the previous 2021.1.x releases.

You can find additional information about what has changed on these pages:

- [InterSystems IRIS](#)
- [InterSystems IRIS for Health](#)
- [HealthShare Health Connect](#)

Please share your feedback through the [Developer Community](#) so we can build a better product together.

How to get the software

The software is available as both classic installation packages and container images. For the complete list of available installers and container images, please refer to the [Supported Platforms webpage](#).

Full installation packages for each product are available from the WRC's [Software Distribution page](#). Container images are available from the [InterSystems Container Registry](#).

There are no Community Edition kits or containers available for this release.

The number of all kits & containers in this release is 2021.1.3.389.0.
