Error installing ZPM

Hi all,

I'm trying to install ZPM into a new instance of IRIS to download packages of utilities in our develop server.

When I'm loading the file zpm-0.5.3.xml it is throwing the following error:

```
Compilando clase %ZPM.PackageManager.Developer.Document.Module
Compilando clase %ZPM.PackageManager.Developer.Document.API
Compilando clase %ZPM.PackageManager.Developer.Document.Module

Any help?

Thanks in advance
